Hanif Patel

Toronto, ON | 437-263-2403 | hanifwork2403@gmail.com | linkedin.com/in/hanif-patel | hhptg.github.io

Cloud and Network Infrastructure Engineer with hands-on experience in Python, cloud deployment, networking, and CI/CD pipelines and incident and problem solving, as demonstrated through hands-on projects and academic achievements. Passionate about leveraging technical expertise to develop innovative solutions and contributing to impactful projects.

EDUCATION

Computer Systems Technology (Honours) — **George Brown Polytechnic**

3.6 GPA, Dean's List

CERTIFICATIONS

Cisco CCNA Enterprise, AWS Cloud Foundations, ITIL Foundation, Python Advanced, Java Programming

WORK EXPERIENCE

Auriga Info Systems — **Remote**

Software Development Intern — *June 2025 - August 2025*

- Worked with stakeholders to gather requirements, analyze system behavior, and translate business needs into technical solutions
- Deployed applications on a team using **Docker** and **CI/CD pipelines** (GitHub Actions / Jenkins).
- Automated repetitive development tasks using **Python scripts**, reducing the overall build time by 12%.

Vice President — **Toronto, ON**

HuskyHacks Hackathon — *September 2025 - Present*

- Handling the organization of the HuskyHacks Hackathon by George Brown Polytechnic Computer Science Club aiming to accommodate over 300 Hackers.
- Working with sponsors and handling financial allocations for the hackathon, with over 7 interested sponsors.
- Leading a team of over 15 members at present with expected growth, in handling all aspects of organization.

Boston World School — **Pune, IN**

Student Application Lead — *June 2022 - July 2023*

- Collaborated with system administrators to monitor and analyze application logs using SIEM-based troubleshooting methods to improve system reliability and security.
- Created student council voting app used by the school to date, developed and deployed a Python-based application tailored to client requirements, resulting in continued adoption by the organization
- Implemented cloud security configurations in AWS (IAM roles, S3 access control policies, network ACLs) to strengthen application access control to cloud based applications.

PROJECTS

E-Voting Web Application

- **Worked in a team to develop a Student Council Voting App** for 'Boston World School' using **HTML, CSS, JavaScript, Flask, and SQL Alchemy**, enabling a fair voting process supporting 100+ concurrent users with secure authentication while maintaining data security.

Weather Monitoring Application

- Developed a user-facing web application with a focus on usability, responsiveness, and clear presentation of real-time and forecast data application behavior across different user scenarios to ensure consistent functionality leading to a **top 5** finish in the Syntax 6.1 Hackathon.

Solar Environment Sustainability

- Designed a system the **India Innovation Challenge 2022** hosted by the **University of Sydney**, focusing on sustainability initiatives. System focused on optimizing energy efficiency and reducing carbon footprint by over **40%** for an entire school system.

SOHO and Enterprise Network Designs

- Designed SOHO and Enterprise network architectures, documenting system components, data flows, and technology decisions using Cisco Packet Tracer also providing a suggested list of required equipment and setup with a PMI-based project outline including documentation for users, supported by coursework in enterprise network design, infrastructure virtualization, and network security

LEADERSHIP EXPERIENCE

George Brown Computer Science Club — **Toronto, ON**

Co-Chair — *June 2024-Present*

- Part of the Initial founding team bringing together 300 students for the computer science club
- Handled several events and meetings while increasing interest and participation toward all activities, increasing engagement by +17% each semester
- Coordinated weekly executive meetings and delegated tasks across club leadership team to ensure smooth club operations.

Student Council President — **Pune, IN**

Boston World School — *Apr 2022 – Jun 2023*

- Represented the student body by acting as a bridge between over 500 students, faculty, and administration, voicing concerns and presenting solutions while leading the Student Council in executing initiatives to enhance school spirit, student engagement, and community development.

SKILLS & INTERESTS

Languages, Frameworks & Libraries: **Python, JavaScript, SQL, Java, HTML/CSS, Flask, React Native, SQLAlchemy, Bootstrap, REST APIs**

Cloud & DevOps: **AWS, Docker, CI/CD, GitHub Actions, Jenkins, AWS IAM, Azure, Infrastructure.**

Networking & Systems: **CCNA-Level Routing & Switching, Network Design, Linux Administration, Windows Server**

Tools & Practices: **Git/GitHub, SIEM Fundamentals, Incident Response, ITIL, Project Management, DevOps.**
